

PRESS RELEASE

EMPLOYMENT OPPORTUNITIES AT TILBURY GREEN POWER PLANT

1 August 2016

In advance of the Tilbury Green Power (TGP) Plant entering its operational phase, TGP is pleased to announce that the company appointed to undertake the operation and maintenance of the Plant on TGP's behalf, Western Biomass Operating Company Limited (WBOC), has now commenced the recruitment process for the operational phase of the project.

WBOC are now recruiting for the following positions:

- Operations Manager (x 1)
- Maintenance Manager (x 1)
- Shift Team Leaders (x 5)
- Mechanical Maintenance Technicians (x 2)
- Electrical, Control & Instrumentation Technicians (x 2)
- Business Support Administrator (x 1)

Details of the opportunities and how to apply are provided on the Tilbury Green Power website (www.TilburyGreenPower.com/employment-opportunities). Applications for the above WBOC positions should be sent in the first instance to TilburyJobs@bwsc.dk. **The closing date for these opportunities is 17 August 2016.**

If there are any questions to any of the above positions, WBOC Plant Manager Mark Stock can be contacted by emailing Tilburyjobs@bwsc.dk

The following positions are also planned to be advertised over the coming months, details of which will be made available on the Tilbury Green Power website (www.TilburyGreenPower.com).

- QHSE Advisor
- Assistant Shift Team Leader
- Fuel Sampling/Handling Team Leader
- Fuel Sampling Assistant/Operational/Maintenance Support
- Plant Attendant/General Purpose Worker

Mark Lawlor, TGP's Construction Manager, said "We are delighted that Western Biomass Operating Company Limited has commenced the recruitment process for the operational phase of the Tilbury Green Power Plant. There is a great diversity of skills available in the local area and we would encourage suitable candidates within the local area to consider applying for these positions."

End of News Release

Notes:

Tilbury Green Power Limited is constructing a renewable power plant fuelled by waste wood, within the Port of Tilbury on the banks of the River Thames.

The Plant will have capacity of around 40 megawatts (MW) and will produce up to 319,000 MWh of renewable electricity each year – enough to supply around 97,000 average homes, and will play a valuable role in the UK meeting its target for producing 20% of its energy from renewable sources. The Plant will utilise around 270,000 tonnes of waste wood sourced from the region.

The Tilbury Green Power Plant is being developed by Tilbury Green Power Limited, the major shareholders of which are ESB and the UK Green Investment Bank. Further details on the Project can be found on our website: **www.TilburyGreenPower.com**

Western Biomass Operating Company Limited is the company appointed by Tilbury Green Power to undertake the operation and maintenance of the Plant on Tilbury Green Power's behalf.
